

# Release New Game of Ludo 3D Game

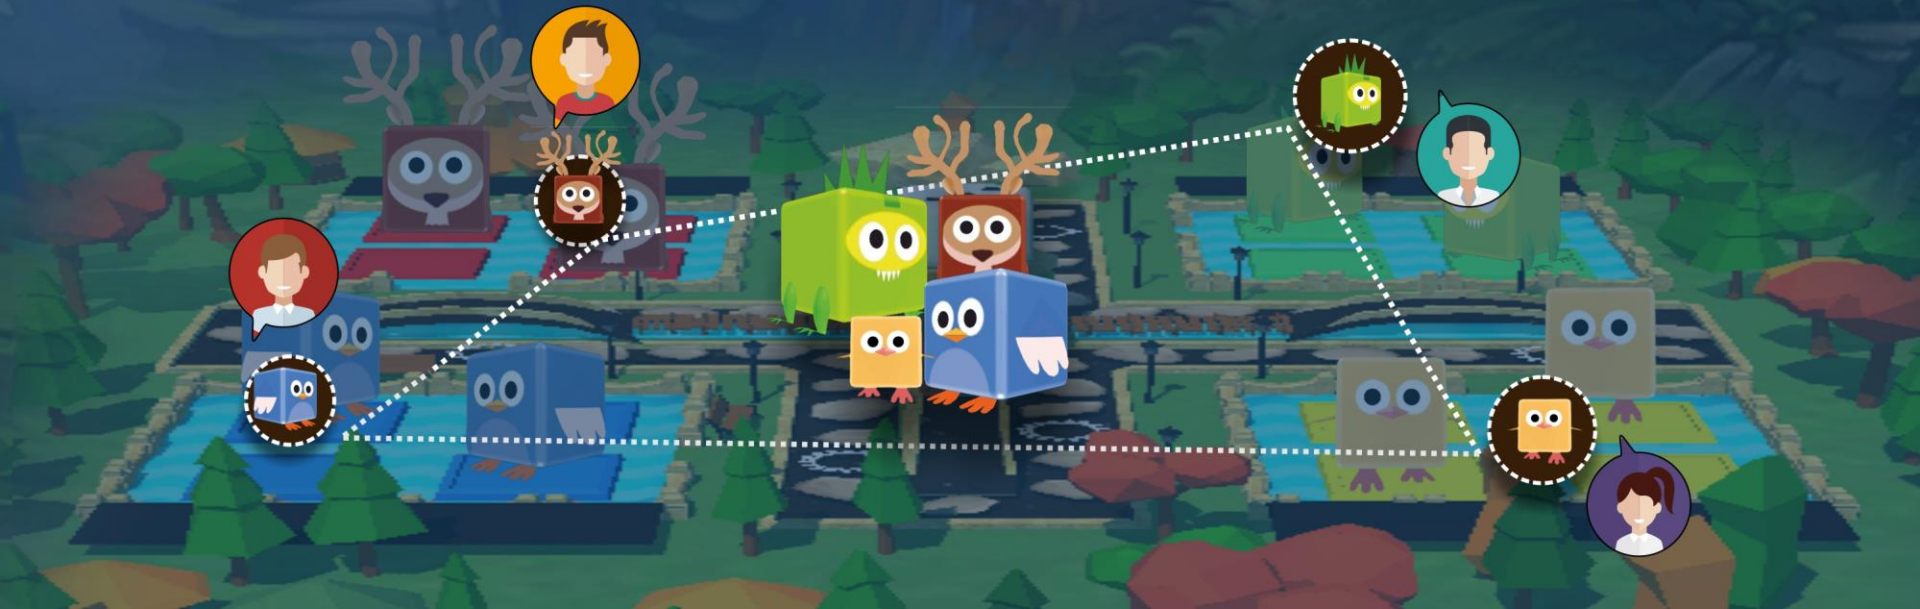

# Play the Multiplayer Ludo 3D turn-based game with your family, Kinds and friends!

You reveal to me you haven't played it at home... and now you can do it on your most loved cell phone wherever you are!

Ludo multiplayer game is one of those works of art everyone has played and speaks to the third game by the youthful studio Diver tap. It is out now to download on **iOS** and **Android**.

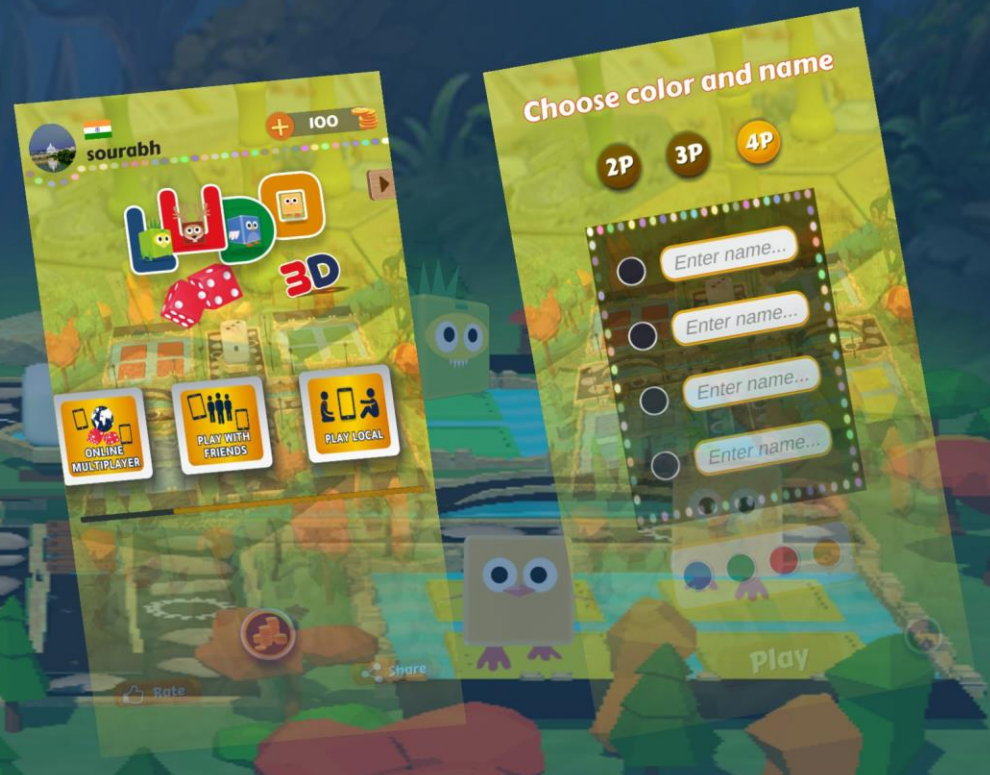

Begin multiplayer games with players from around the globe or test your companions. It doesn't make a difference on the off chance that they're on an Android or an **iOS device**, in light of the fact that the Ludo 3d game was worked in view of cross-stage. Macedonia helped the engineers in bringing the game to live speedier.

You'll have the capacity to make arrangements of companions — from Facebook or straight forwardly by email—and add them to new games. Furthermore, you can play with maybe a couple dice to make things spicier.

Since Ludo is a socialization game on a basic level, Diver tap included an in-game visit so you would text be able to with your buddies or family so you can have a discussion about anything you like. Or on the other hand even junk talk them, similar to "I'm going to beat Y'all!".

Each and every game can be played crosswise over devices. Along these lines you can begin a ludo game on your telephone and proceed on your tablet once you return home, for instance. Diver tap makes it simple for you to appreciate this immortal game.

Pick your most loved symbol from an entire display to alter your player profile. You don't need your profile to look simply like your mamma's, isn't that so?
